

REMARKS

Applicant filed a notice of appeal in this application on April 5, 2010. This amendment is submitted after the filing of the notice of appeal, but prior to the date of filing a brief. Under M.P.E.P. § 1206, Applicant submits the above amendment to present the rejected claims in better form for consideration on appeal.

Independent Claims 1 and 15 are amended to clarify the serving network domain name is extracted from the *response* to the reverse domain name query. Support for this amendment may be found at page 6, lines 19-23, and page 7, lines 18-29 of the application as originally filed.

This amendment does not change the scope of Claims 1 and 15. In view of the specification and the preceding limitation that the response comprises the domain name, one of ordinary skill reading previous Claims 1 and 15 would understand the domain name is extracted from the response to the response. Accordingly, Applicant does not intend to surrender any equivalents encompassed by Claims 1 and 15 as a result of this amendment.

This amendment places the claims in better form for consideration on appeal because it more clearly identifies the source of the serving network domain name. Therefore, entry of this amendment is permissible under M.P.E.P. § 1206. Applicant respectfully requests entry of this amendment.

Applicant does not believe that any fees are due; however, in the event that any fees are due, the Director is hereby authorized to charge any required fees due (other than issue fees), and to credit any overpayment made, in connection with the filing of this paper to Deposit Account No. 50-0605 of CARR LLP.

Should the Examiner deem that any further amendment is desirable to place this application in condition for allowance, the Examiner is invited to telephone the undersigned at the number listed below.

Respectfully submitted,
